

INDEX TO VOLUME 92

A

- ABBASSI, VALIOLLAH, LOWE, CHARLES U., and CAL-CAGNO, PHILIP L.:** Oculo-cerebro-renal syndrome: review (ab) 92: 197, 1969
- ABBOTT, MICHAEL, and ALKSNE, JOHN F.:** Transport of intrathecal I^{131} RISA to circulating plasma: a test for communicating hydrocephalus (ab), 92: 1603, 1969
- ABDOMEN**
See also Abdominal Angiography; Pregnancy; Urography; and under individual organs, as Adrenals
- extraperitoneal perivisceral fat pad. I. Its role in roentgenologic visualization of abdominal organs, Joseph P. Whalen, Alfred S. Berne, and Paul A. Riemenscheider, 92: 466, 1969
 - extraperitoneal perivisceral fat pad. II. Roentgen interpretation of pathological alterations, Joseph P. Whalen and Alfred S. Berne, 92: 473, 1969
- abscess**
—roentgenographic features of neutrophil dysfunction syndromes, Richard H. Gold, Steven D. Douglas, Leslie Preger, Howard L. Steinbach, and H. Hugh Fudenberg, 92: 1045, 1969
- acute conditions**
—hereditary angioneurotic edema involving small intestine, Kent Ellis and David J. McConnell, 92: 518, 1969
- urinary excretion of Gastrografin in abdominal emergencies (ab), J. B. Douglas and I. H. Kerr, 92: 1166, 1969
- blood supply.** See also Abdominal Angiography
- angiodyplasias of abdominal viscera associated with hereditary hemorrhagic telangiectasia (ab), M. Halpern et al., 92: 203, 1969
- calcification**
—calcification in inferior vena cava, Stephen L. Gammill and Charles M. Nice, Jr., 92: 1288, 1969
- fibrosis**
—idiopathic retroperitoneal fibrosis: clinical experiences with 15 cases, 1956-1967 (ab), Walter S. Kerr, Jr., et al., 92: 430, 1969
- problems in use of urography and lymphangiography in diagnosis of idiopathic retroperitoneal fibrosis (ab), Donald B. Halverstadt, 92: 431, 1969
 - retroperitoneal fibrosis associated with methysergide therapy (ab), Gary Morrison, 92: 665, 1969
- pain**
—renal angiography after revascularization operations, Steven H. Cornell, 92: 880, 1969
- radioisotope studies**
—renal excretion of radioiodinated rose bengal—pitfall in interpretation of rose bengal abdominal scans (ab), Leonard M. Freeman et al., 92: 674, 1969
- roentgenography.** See also Abdominal Angiography
- adjunct for decubitus filming of chest and abdomen, E. P. Engels, 92: 1124, 1969
 - lateral compression roentgenogram of abdomen in pregnancy (ab), Melvyn H. Schreiber and Luis B. Moretini, 92: 211, 1969
 - more on roentgenology of paracolic gutter (ed), Christian V. Cimmino, 92: 638, 1969
- tumors**
—intra-arterial epinephrine protection against radiation nephritis: progress report, R. J. Steckel, P. L. Tobin, J. J. Stein, and L. R. Bennett, 92: 1341, 1969
- left renal vein entrapment: new diagnostic finding in retroperitoneal disease, Constantin Cope and Harold J. Isard, 92: 867, 1969
 - roentgenologic expression of retroperitoneal tumors at level of duodenal loop (ab), J. Heully et al., 92: 1408, 1969
 - splanchic artery stenosis and occlusion: incidence; arteriographic and clinical manifestations, Klaus M. Bron and Helen C. Redman, 92: 323, 1969
- wounds and injuries**
—angiography in blunt abdominal trauma (ab), Robert J. Freeark et al., 92: 424, 1969
- duodenojejunal hematoma (ab), D. M. Essenhigh and J. Toland, 92: 430, 1969
 - intramural duodenal hematoma in children (ab), Donald P. Babbitt et al., 92: 207, 1969
 - role of selective angiography in diagnosis and treatment of hepatoportal arteriovenous fistula, Juri Kaude, David L. Dudgeon, and James L. Talbert, 92: 1271, 1969
 - splenic trauma in children (ab), P. Upadhyaya and J. S. Simpson, 92: 213, 1969
 - traumatic diaphragmatic hernia (ab), W. R. Cole, 92: 1149, 1969
- ABDOMINAL ANGIOGRAPHY**
—arteriographic diagnosis of internal (left paraduodenal) hernia, Morton A. Meyers, 92: 1035, 1969
- comparison of celiacography and direct portography in diagnosis of evaluation of liver diseases, K. F. Aronsen, A. Lunderquist, and G. Nylander, 92: 313, 1969
 - compression of celiac trunk and angiographic evaluation of its hemodynamic significance (ab), Victor Deutsch, 92: 1153, 1969

- diagnosis of lienunculus (ab), Klaus M. Bron et al., 92: 213, 1969
 - giant hepatic hemangioma with cardiac failure in newborn infant: value of high-dosage intravenous urography and umbilical angiography, Walter E. Berdon and David H. Baker, 92: 1523, 1969
 - pediatric arteriography in abdominal and extremity lesions: clinical experience, indications, and technic, Klaus M. Bron, Richard R. Riley, and Bertram R. Girdany, 92: 1241, 1969
 - retrograde flow of portal vein blood in patients with cirrhosis, Richard E. Kessler, David A. Tice, and David S. Zimmon, 92: 1038, 1969
 - rupture of right hemidiaphragm with herniation of liver, I. Engge and T. Frøysaker, 92: 1273, 1969
 - splanchic artery stenosis and occlusion: incidence; arteriographic and clinical manifestations, Klaus M. Bron and Helen C. Redman, 92: 323, 1969
 - technics, usefulness, and hazards of arteriography of pheochromocytoma: review of 99 cases (ab), Plinio Rossi et al., 92: 1414, 1969
- apparatus and equipment**
—new one-catheter torque-guide system for percutaneous exploratory abdominal angiography, Constantin Cope, 92: 174, 1969
- superselective arteriography in diagnosis of abdominal pathology: technical considerations, Josef Rösch and J. H. Grollman, Jr., 92: 1008, 1969
- technic**
—angiographic demonstration of portocaval and other decompressive liver shunts, Helen C. Redman and Stewart R. Reuter, 92: 788, 1969
- arterial portography: patterns of venous flow, Francis F. Ruzicka, Jr., and Plinio Rossi, 92: 777, 1969
 - arteriography in diagnosis of gallbladder disease, J. Rösch, J. H. Grollman, Jr., and R. J. Steckel, 92: 1485, 1969
 - arteriography of adrenals, Nils Lindvall and Premysl Slezak, 92: 990, 1969
 - improved portography of delayed postepinephrine celiac and mesenteric arteriography, Paul C. Kahn, John F. O'Halloran, Jr., and Robert E. Paul, Jr., 92: 86, 1969
 - new one-catheter torque-guide system for percutaneous exploratory abdominal angiography, Constantin Cope, 92: 174, 1969
 - perthoracic venography in study of human renal transplant recipients (ab), W. A. B. Smellie et al., 92: 211, 1969
 - radiographic approach to celiac ganglion block, J. Bruce Jacobs, Stephen H. Jackson, and John L. Doppman, 92: 1372, 1969
 - superselective arteriography in diagnosis of abdominal pathology: technical considerations, Josef Rösch and J. H. Grollman, Jr., 92: 1008, 1969
 - superselective pancreatic angiography, Stewart R. Reuter, 92: 74, 1969
- ABELL, MURRAY R.:** Lymphoid hamartoma (ab), 92: 428, 1969
- ABLOW, RONALD C., GREENSPAN, RICHARD H., and GLUCK, LOUIS:** The advantages of direct magnification technic in the newborn chest, 92: 745, 1969
- ABNORMALITIES AND DEFORMITIES**
See also Chondroectodermal Defect; Dwarfism; Mongolism; under organs and regions, as Heart, abnormalities
- abnormalities in children exposed to x radiation during various stages of gestation: tentative timetable of radiation injury to human fetus. Part I (ab), Anatole S. Dekaban, 92: 1605, 1969
 - cri du chat syndrome, A. Everette James, Jr., Leonard Atkins, Murray Feingold, and Murray L. Janower, 92: 50, 1969
 - trisomy 13-15, A. Everette James, Jr., Christian L. Belcourt, Leonard Atkins, and Murray L. Janower, 92: 44, 1969
 - trisomy 18, A. Everette James, Jr., Christian L. Belcourt, Leonard Atkins, and Murray L. Janower, 92: 37, 1969
- ABORTION**
therapeutic
—radiologists, medical radiation, and public health: Annual Oration in memory of Frederick William O'Brien, M.D., 1881-1965, 92: 685, 1969
- ABRAHAM, J. M., and RUSSELL, ALEX:** de Lange syndrome, a study of nine examples (ab), 92: 1159, 1969
- ABRAMS, E.** See RANNIGER, E.
- ABRAMS, HERBERT L.** See FABIAN, CARL E.
- See KUPIC, EDWARD A.
- See TAKAHASHI, MUTSUMASA
- ABRAMS, RAYMOND M., BERANBAUM, ELLIOTT R., SANTOS, JESUS S., and LIPSON, JEFFREY:** Angiographic features of cavernous hemangioma of liver, 92: 308, 1969
- ABSCESS**
See also under organs and regions
- delineation of abscesses by scintiphography using Cr^{51} -labeled leukocytes (ab), James Winkelman et al., 92: 1422, 1969

INDEX TO VOLUME 92

A

- ABBASSI, VALIOLLAH, LOWE, CHARLES U., and CAL-CAGNO, PHILIP L.:** Oculo-cerebro-renal syndrome: review (ab) 92: 197, 1969
- ABBOTT, MICHAEL, and ALKSNE, JOHN F.:** Transport of intrathecal I^{131} RISA to circulating plasma: a test for communicating hydrocephalus (ab), 92: 1603, 1969

ABDOMEN

- See also Abdominal Angiography; Pregnancy; Urography; and under individual organs, as Adrenals
- extraperitoneal perivisceral fat pad. I. Its role in roentgenologic visualization of abdominal organs, Joseph P. Whalen, Alfred S. Berne, and Paul A. Riemenscheider, 92: 466, 1969
 - extraperitoneal perivisceral fat pad. II. Roentgen interpretation of pathological alterations, Joseph P. Whalen and Alfred S. Berne, 92: 473, 1969

abscess

- roentgenographic features of neutrophil dysfunction syndromes, Richard H. Gold, Steven D. Douglas, Leslie Preger, Howard L. Steinbach, and H. Hugh Fudenberg, 92: 1045, 1969

acute conditions

- hereditary angioneurotic edema involving small intestine, Kent Ellis and David J. McConnell, 92: 518, 1969
- urinary excretion of Gastrografin in abdominal emergencies (ab), J. B. Douglas and I. H. Kerr, 92: 1166, 1969

blood supply. See also Abdominal Angiography

- angiodyplasias of abdominal viscera associated with hereditary hemorrhagic telangiectasia (ab), M. Halpern et al, 92: 203, 1969

calcification

- calcification in inferior vena cava, Stephen L. Gammill and Charles M. Nice, Jr., 92: 1288, 1969

fibrosis

- idiopathic retroperitoneal fibrosis: clinical experiences with 15 cases, 1956-1967 (ab), Walter S. Kerr, Jr., et al, 92: 430, 1969
- problems in use of urography and lymphangiography in diagnosis of idiopathic retroperitoneal fibrosis (ab), Donald B. Halverstadt, 92: 431, 1969
- retroperitoneal fibrosis associated with methysergide therapy (ab), Gary Morrison, 92: 665, 1969

pain

- renal angiography after revascularization operations, Steven H. Cornell, 92: 880, 1969

radioisotope studies

- renal excretion of radioiodinated rose bengal—pitfall in interpretation of rose bengal abdominal scans (ab), Leonard M. Freeman et al, 92: 674, 1969

roentgenography. See also Abdominal Angiography

- adjunct for decubitus filming of chest and abdomen, E. P. Engels, 92: 1124, 1969
- lateral compression roentgenogram of abdomen in pregnancy (ab), Melvyn H. Schreiber and Luis B. Moretini, 92: 211, 1969
- more on roentgenology of paracolic gutter (ed), Christian V. Cimmino, 92: 638, 1969

tumors

- intra-arterial epinephrine protection against radiation nephritis: progress report, R. J. Steckel, P. L. Tobin, J. J. Stein, and L. R. Bennett, 92: 1341, 1969
- left renal vein entrapment: new diagnostic finding in retroperitoneal disease, Constantin Cope and Harold J. Isard, 92: 867, 1969
- roentgenologic expression of retroperitoneal tumors at level of duodenal loop (ab), J. Heully et al, 92: 1408, 1969
- splanchic artery stenosis and occlusion: incidence; arteriographic and clinical manifestations, Klaus M. Bron and Helen C. Redman, 92: 323, 1969

wounds and injuries

- angiography in blunt abdominal trauma (ab), Robert J. Freeark et al, 92: 424, 1969
- duodenojejunal hematoma (ab), D. M. Essenhigh and J. Toland, 92: 430, 1969

- See KUPIC, EDWARD A.

- See TAKAHASHI, MUTSUMASA

- ABRAMS, RAYMOND M., BERANBAUM, ELLIOTT R., SANTOS, JESUS S., and LIPSON, JEFFREY:** Angiographic features of cavernous hemangioma of liver, 92: 308, 1969

ABSCESS

- See also under organs and regions

- delineation of abscesses by scintiphography using Cr^{51} -labeled leukocytes (ab), James Winkelman et al, 92: 1422, 1969

- ABSCESSES—cont.**
 amebic. See Liver, amebic abscess
 perinephric
 —epinephrine-enhanced arteriography in renal and perirenal abscess: differential diagnostic problem, Gabriel Caro, Robert Meisell, and Barry Held, 92: 1262, 1969
 subphrenic
 —classification of perihepatic abscesses, Joseph P. Whalen and Jean-Paul Bierny, 92: 1427, 1969
 —roentgen findings in delayed diagnosis of appendicitis (ab), Preston B. Mayson, Jr., and Sheldon J. Rosenthal, 92: 661, 1969
- ABSORPTIOMETRY.** See Photons
- ABU-SHUMAYS, I. K.** See MARINELLI, L. D.
- ACCIDENTS**
 See also Radiations, Injurious Effects
 —characteristic pulmonary finding in traumatic complete transection of main-stem bronchus, Kook Sang Oh, Felix G. Fleischner, and Stanley M. Wyman, 92: 371, 1969
 —seat-belt injury: injury of abdominal aorta, Dudley K. Campbell and Raymond F. Austin, 92: 123, 1969
- ACETYLCHOLINE**
 —effect of acetylcholine on renal arteriography: preliminary observations (ab), Thomas A. Freed and Melvin Vinik, 92: 212, 1969
- ACHONDROPLASIA**
 —Conradi's disease: chondrodystrophia calcificans congenita, congenital stippled epiphyses (ab), David E. Comings et al., 92: 208, 1969
 —differential diagnosis of achondroplasia (ab), Frederic N. Silverman, 92: 1408, 1969
 —thanatophoric dwarfism: condition confused with achondroplasia in neonate, with brief comments on achondrogenesis and homozygous achondroplasia, Leonard O. Langer, Jr., Jürgen W. Spranger, I. Greinacher, and Roger C. Herdman, 92: 285, 1969
- ACID**
 See also Gastrointestinal Tract, roentgenography
 amino. See Amino Acids
 deoxyribonucleic. See Nucleins
 diethylenediaminopentaacetic. See Amino Acids
 para-aminohippuric
 —renal arteriography and renal function: short-term effect of aortography, selective renal arteriography, adrenalin suppression, and renal venography on PAH extraction ratio (ab), W. A. Sorby and R. J. Hoy, 92: 1411, 1969
 ribonucleic. See Nucleins
 uric. See Uric Acid
- ACROMEGALY**
 diagnosis
 —evaluation of diagnostic value of heel-pad thickness in acromegaly, S. K. Gontikas, D. G. Ikkos, and L. Stergiou, 92: 304, 1969
- ACROPACHY.** See Fingers and Toes, clubbing
- ACTINOMYCIN D.** See Prostate, tumors
- ADAMANTINOMA.** See Tumors, adamantinoma
- ADAMS, BETTY L.** See SAYLOR, W. L.
- ADAMS, DOUGLASS F.** See CASTELLINO, RONALD A.
- ADAMS, JOHN E.** See LEE, WILLIAM M.
- ADATEPE, MUSTAFA.** See POTCHEN, E. JAMES
- ADENINE**
 —adenine uptake by rat thymocytes x irradiated *in vitro* (ab), Gerald M. Christensen and Kenneth L. Jackson, 92: 1426, 1969
- ADHESIONS**
 —ileal obstruction due to adhesions and phyto bezoar following gastrectomy: report of case, Alan Herschman, 92: 1307, 1969
 —trapped air sign: its value in interpretation of antral deformities (ab), K. Lumsden and J. H. W. Pexman, 92: 429, 1969
- ADRENAL PREPARATIONS**
 —arteriography of adrenals, Nils Lindvall and Premysl Slezak, 92: 999, 1969
 —epinephrine-enhanced arteriography in renal and perirenal abscess: differential diagnostic problem, Gabriel Caro, Robert Meisell, and Barry Held, 92: 1262, 1969
 —epinephro-plebography in two cases of Conn's syndrome (ab), C. G. Mikaelsson, 92: 1598, 1969
 —improved portography by delayed postepinephrine celiac and mesenteric arteriography, Paul C. Kahn, John F. O'Halloran, Jr., and Robert E. Paul, Jr., 92: 86, 1969
 —intra-arterial epinephrine protection against radiation nephritis: progress report, R. J. Steckel, P. L. Tobin, J. J. Stein, and L. R. Bennett, 92: 1341, 1969
 —renal arteriography and renal function: short-term effect of aortography, selective renal arteriography, adrenalin suppression, and renal venography on PAH extraction ratio (ab), W. A. Sorby and R. J. Hoy, 92: 1411, 1969
- ADRENALIN.** See Adrenal Preparations
- ADRENALS**
 —arteriography of adrenals, Nils Lindvall and Premysl Slezak, 92: 999, 1969
 cancer
 —demonstration of adrenal metastases by adrenal venography (ab), Stewart R. Reuter, 92: 667, 1969
 tumors
 —epinephro-plebography in two cases of Conn's syndrome (ab), C. G. Mikaelsson, 92: 1598, 1969
 —neuroblastoma—emphasis on mediastinal neuroblastoma (ab), Leonard C. Griff and Roberta E. Griff, 92: 419, 1969
 —technics, usefulness, and hazards of arteriography of pheochromocytoma: review of 99 cases (ab), Plinio Rossi et al., 92: 1414, 1969
- ADSON, MARTIN A.** See CUPPS, ROGER E.
- AEROSOLS**
 —aerosol bronchography, Harry W. Fischer and Seymour M. Blaug, 92: 150, 1969
- AFIP.** See Armed Forces Institute of Pathology
- AGE AND AGING**
 —influence of age at exposure on some persistent and late effects of irradiation with fast neutrons (ab), D. C. Jones et al., 92: 680, 1969
 —progressive intercapillary glomerulosclerosis in aging and irradiated beagles (ab), Paul H. Guttman and A. C. Andersen, 92: 1175, 1969
 —study of angiographic appearance of kidney in aging normotensive population, Alan J. Davidson, Lee B. Talner, and W. Montague Downs, III, 92: 975, 1969
- AGEE, FRANK.** See CRONQVIST, STEN

 - dosimetry of irregularly shaped radiation therapy fields. Part I: Some factors influencing inhomogeneity, R. E. Anderson, G. J. D'Angio, and Faiz M. Khan, 92:1092, 1969
 - dosimetry of irregularly shaped radiation therapy fields. Part II: Isodose contours obtained utilizing simulated human thorax, R. E. Anderson, G. J. D'Angio, and Faiz M. Khan, 92:1097, 1969
 - dosimetry within body of rats after ^{90}Sr - ^{90}Y incorporation (ab), K. H. Steinbach and H. Krieger, 92:1423, 1969
 - effect of anatomical irregularities on dose in electron beam therapy (ab), P. Karjalainen et al., 92:218, 1969
 - effect of cell concentration during irradiation at low-oxygen tension on survival of mouse ascites tumor cells (ab), T. C. Evans et al., 92:1175, 1969

RADIOBIOLOGY, dosage studies—cont.

- experimental demonstration of influence of bone on dose distribution in radiotherapy, Jena M. Debois and Michel De Roo, 91: 1, 1969
- oxygen effect in bacterial cells irradiated with high-intensity pulsed electrons (ab), Edward R. Epp et al, 92: 448, 1969
- patient equivalence of the RANDO phantom for cobalt gamma rays, W. L. Saylor and Betty L. Adams, 92: 165, 1969
- proton microdosimetry, Jerald W. Hilbert and Norman A. Baily, 92: 168, 1969
- radiation dose-time relations for induction of bone tumors in dog and skin tumors in rat (ab), H. A. Blair, 92: 679, 1969
- recognition of irradiated isogenic mouse lymphoma cell, Yosh Maruyama, 92: 630, 1969
- reoxygenation of tumors during fractionated radiotherapy, Lucille A. Du Sault, 92: 626, 1969
- response of beagle dog to cobalt-60 gamma radiation: determination of LD_{50/30} and description of associated changes (ab), W. P. Norris et al, 92: 1606, 1969
- theoretical "iso-survival" formulae for fractionated radiation therapy (ab), Lionel Cohen, 92: 670, 1969
- use of activity induced in tissue to determine dose from particulate radiations, E. E. Stickley and Nabil Azzam, 92: 168, 1969

embryonal, fetal, genetic studies

- major malformations in trout embryo irradiated prior to active organogenesis (ab), John F. McGregor and Howard B. Newcombe, 92: 1607, 1969
- persistence of chromosomal aberrations in Chinese hamster thyroid following administration of ¹³¹I (ab), W. Moore, Jr., and M. Colvin, 92: 224, 1969
- radiation damage in primordial germ cells of mice (ab), Martin Schmetter et al, 92: 680, 1969
- radiation effect on microcirculation; relation to early mortality in chick embryo (ab), S. Phyllis Stearns and Emily J. B. Christian, 92: 224, 1969
- reproductive fitness of descendants of mice exposed to spermatogonial irradiation (ab), Earl L. Green, 92: 1426, 1969
- tumor induction as measure of genetic damage and repair in somatic cells of mice (ab), H. J. Curtis et al, 92: 448, 1969

endocrine studies

- adenine uptake by rat thymocytes x-irradiated *in vitro* (ab), Gerald M. Christensen and Kenneth L. Jackson, 92: 1426, 1969
- effects of iodine 131 on thyroid and pituitary of goldfish (*Carassius auratus* L.) (ab), Walter Chavin and Christine A. Cukrowski, 92: 224, 1969
- neuroendocrine reactions and radiation-induced variations in rat intestinal alkaline ribonuclease levels (ab), P. A. Gresham and W. F. R. Pover, 92: 447, 1969
- neurosecretion in hypothalamus and posterior pituitary after irradiation and injection of chemical radioprotectors in rat (ab), P. Y. Duchesne et al, 92: 680, 1969
- thymus cell death following irradiation (ab), Kenneth L. Jackson et al, 92: 447, 1969

lethality studies

- circulatory response to supralethal exposure of whole-body x irradiation in dogs (ab), C. T. Liu and R. R. Overman, 92: 1425, 1969
- delayed mortality in sublethally irradiated mice treated with allogeneic lymphoid and myeloid cells (ab), Milivoj Boranić, 92: 1419, 1969
- prolongation of postirradiation survival by diversion of intestinal content (ab), Nathan Hiatt, Leon Morgenstern, and Nancy E. Warner, 92: 1425, 1969
- radiation effect on microcirculation; relation to early mortality in chick embryo (ab), S. Phyllis Stearns and Emily J. B. Christian, 92: 224, 1969
- reduction of short- and long-term radiation lethality by mixtures of chemical protectors (ab), J. R. Maisin et al, 92: 1176, 1969
- response of beagle dog to cobalt-60 gamma radiation: determination of LD_{50/30} and description of associated changes (ab), W. P. Norris et al, 92: 1606, 1969

leukemia studies

- transient graft-versus-host reaction in treatment of leukemia in mice (ab), Milivoj Boranić, 92: 1419, 1969

lymphatic studies

- comparison of endolymphatic ³²P-labeled and ¹³¹I-labeled lipids in the VX₂-involved lymph nodes of rabbit (ab), Reginald S. A. Lord and J. B. Kinmonth, 92: 1420, 1969
- direct injection mediastinal lymphography: animal experiments, H. Y. Yune, Perry F. Harris, Vernon A. Vix, and Eugene C. Klatte, 92: 817, 1969
- experimental opacification of subternal lymph nodes in animals (ab), P. Ruben Koehler and Hector A. Rodriguez, 92: 428, 1969
- lymph node scanning with ^{99m}Tc-sulfur colloid, W. Hauser, H. L. Atkins, and P. Richards, 92: 1369, 1969
- uptake of colloidal chromic phosphate in mediastinal lymph nodes: therapeutic possibilities (ab), L. J. Angileri, 92: 676, 1969

metabolic studies

- adenine uptake by rat thymocytes x irradiated *in vitro* (ab), Gerald M. Christensen and Kenneth L. Jackson, 92: 1426, 1969

- changes in rate of oxygen consumption by mouse spleen following whole-body x irradiation (ab), N. T. S. Evans, 92: 1426, 1969
- intestinal transport and metabolism following whole-body irradiation (ab), A. D. Ferris, 92: 680, 1969
- protein catabolism in young mice following whole-body x irradiation, S. W. Lippincott, N. A. Azzam, and C. C. Rogers, 92: 629, 1969
- retention and storage sites of radioactive polyvinylpyrrolidone (ab), B. Hulme et al, 92: 1172, 1969

neurologic and psychologic studies

- angiographic demonstration of increased spinal cord blood flow following administration of a pressor amine, John L. Doppmann, Willis E. Brown, Jr., and Giovanni Di Chiro, 92: 239, 1969
- central nervous system syndrome of mouse: effects of strain, age, and conditioning exposure (ab), John M. Yuhas, 92: 1007, 1969
- effect of cobalt-60 gamma irradiation on blood pressure and cerebral blood flow in *Macaca mulatta* (ab), Paul H. Chapman and Robert J. Young, 92: 1175, 1969
- effect of vagotomy on cholesterol cholelithogenesis in rabbit (ab), John R. Amberg, 92: 1158, 1969
- experimental cerebral emboli: angiographic evaluation of autologous emboli in dog (ab), Calvin L. Rumbaugh et al, 92: 1588, 1969
- neurosecretion in hypothalamus and posterior pituitary after irradiation and injection of chemical radioprotectors in rat (ab), P. Y. Duchesne et al, 92: 680, 1969
- technic for experimental embolization of cerebral arteries and repetitive selective internal carotid arteriography in dogs (ab), Kuo York Chynn, 92: 1151, 1969

ophthalmologic studies

- anomalous effects of dimethyl sulfoxide on response of mouse lens and cornea to x irradiation: "protection" of lens and "sensitization" of cornea, Ronald F. Hagemann, Titus C. Evans, and Edgar F. Riley, 92: 156, 1969
- relative radiosensitivity of young and adult lens, George R. Merriam, Jr., Elizabeth F. Focht, and R. Wayne Parsons, 92: 1114, 1969

protective and therapeutic agents

- anomalous effects of dimethyl sulfoxide on response of mouse lens and cornea to x irradiation: "protection" of lens and "sensitization" of cornea, Ronald F. Hagemann, Titus C. Evans, and Edgar F. Riley, 92: 156, 1969
- effects of x-rays on regrowth of hair in mouse and their modification by cysteamine (ab), T. E. Burlin et al, 92: 448, 1969
- neurosecretion in hypothalamus and posterior pituitary after irradiation and injection of chemical radioprotectors in rat (ab), P. Y. Duchesne et al, 92: 680, 1969
- protection of *Escherichia coli* against radiation damage by 2-methyl-1, 3-cyclohexanedione and some related compounds (ab), Robert F. Pittillo and Mary B. Lucas, 92: 448, 1969
- reduction of short- and long-term radiation lethality by mixtures of chemical protectors (ab), J. R. Maisin et al, 92: 1176, 1969
- role of metal chelation in chemical radiation protection of enzyme systems, with application to carboxypeptidase A (ab), Esther D. Fultz, 92: 679, 1969

pulmonary studies

- aerosol bronchography, Harry W. Fischer and Seymour M. Blaug, 92: 150, 1969
- experimental model to study pulmonary microembolism, A. Everette James, Jr., S. Boyd Eaton, David L. Page, Majie S. Potsaid, and Felix G. Fleischner, 93: 924, 1969
- powdered tantalum as medium for bronchography in canine and human lungs (ab), Jay A. Nadel et al, 92: 1148, 1969
- production of pulmonary edema by aspiration of water-soluble nonabsorbable contrast media, Stanley B. Reich, 92: 367, 1969
- radioactive albumin microspheres for studies of pulmonary circulation, Buck A. Rhodes, Ilse Zolle, Julia W. Buchanan, and Henry N. Wagner, Jr., 92: 1453, 1969
- study of changes in roentgenogram of chest in experimental pulmonary embolism (ab), Walter G. Wolfe and David S. Sabiston, Jr., 92: 1584, 1969

radiosensitivity. See Radiosensitivity**relative biologic effectiveness**

- relative effects of fast neutrons and x rays on tumor and normal tissue in rat. Part II. Fractionation: recovery and reoxygenation (ab), S. B. Field et al, 92: 1425, 1969
- survival studies on rodents exposed to reactor fast-neutron radiation (ab), Jerome J. Gambino et al, 92: 1606, 1969

spleen studies

- delayed mortality in sublethally irradiated mice treated with allogeneic lymphoid and myeloid cells (ab), Milivoj Boranić, 92: 1419, 1969
- factors influencing hemopoietic spleen colony formation in irradiated mice. VI. Different effects of foreign plasma, endotoxin, and bleeding on colony-forming cell kinetics (ab), D. R. Boggs et al, 92: 1168, 1969

urinary tract studies

- collateral arterial development and renal function in experimental renal hypertension: preliminary observations (ab), Mutsumasa Takahashi et al, 92: 212, 1969
- complications of needle biopsy of kidney in dog: radiological and pathological correlation, Edward I. Sweet, Alan J. Davidson, and John P. Hayslett, 92: 849, 1969

RADIOBIOLOGY, urinary tract studies—cont.

- effect of acetylcholine on renal arteriography: preliminary observations (ab), Thomas A. Freed and Melvin Vinik, 92:212, 1969
- effect of local irradiation of kidneys on renal function of dog (ab), Karel Záruba, 92:1606, 1969
- fractionated heavy ion irradiation of cultured human cells (ab), Paul Todd, 92:447, 1969
- mechanism of renovascular backflow: pathophysiologic study, Nathan Green, Aaron G. Fingerhut, and Samuel French, 92:531, 1969
- progressive intercapillary glomerulosclerosis in aging and irradiated beagles (ab), Paul H. Guttman and A. C. Andersen, 92:1175, 1969
- renal vascular alterations induced by hemorrhagic hypotension: preliminary observations (ab), Edward A. Kupic and Herbert L. Abrams, 92:1596, 1969
- retention and storage sites of radioactive polyvinylpyrrolidone (ab), B. Hulme et al., 92:1172, 1969
- use of xenon 133 to measure renal blood flow in patients (ab), M. D. Cosgrove et al., 92:445, 1969
- visualization of heart and kidneys in animals with ultra-short-lived ^{82}Rb and positron scintillation camera (ab), Yukio Yano and Hal O. Anger, 92:1173, 1969

RADIOCALCIUM

- bone scintigraphy with ^{45}Ca and scintillation camera (ab), B. Basse-Cathalinat et al., 92:1423, 1969
- marrow-cell injury following ^{45}Ca uptake in bone (ab), S. C. Barranco et al., 92:1424, 1969

RADIOCALIFORNIUM

- dosimetry of implantable ^{252}Cf source, G. D. Oliver, Jr., and C. N. Wright, 92:143, 1969

RADIOCARBON

- early detection of bacterial growth, with carbon-14-labeled glucose, Frank H. DeLand and Henry N. Wagner, Jr., 92:154, 1969
- placental localization by inhalation of radioactive carbon monoxide (ab), H. I. Glass et al., 92:1605, 1969

RADIOCESIUM

- central-axis depth-dose data for phantoms of 0- to 25-cm thickness in roentgen, cesium-137, and cobalt-60 therapy, Jean-Marc Lègare, 92:1321, 1969
- cesium 131 photoscanner: aid in diagnosis of myocardial infarction (ab), John T. McGeehan et al., 92:445, 1969
- experimental demonstration of influence of bone on dose distribution in radiotherapy, Jean M. Debois and Michel De Roo, 92:1, 1969
- telecesium therapy for lymphogranulomatosis (ab), Cuno Wieland, 92:215, 1969

RADIOCHROMIUM

- delineation of abscesses by scintiphotography using ^{51}Cr -labeled leukocytes (ab), James Winkelman et al., 92:1422, 1969
- extracorporeal irradiation of blood in man: radiation resistance of circulating platelets (ab), M. L. Greenberg et al., 92:1170, 1969
- radioisotope scanning of superior mediastinal masses (ab), Yen Wang, 92:1422, 1969
- simplified method for simultaneous determinations of plasma volume and red-cell mass with ^{51}Cr -labeled albumin and ^{51}Cr -tagged red cells (ab), Ernest Grable and John A. Williams, 92:675, 1969
- uptake of colloidal chromic phosphate in mediastinal lymph nodes: therapeutic possibilities (ab), L. J. Angileri, 92:676, 1969

RADIOCOBALT

- physical comparison of gamma camera and two-headed scanner: figures of merit and times required for threshold detection of spherical sources (ab), B. Westerman et al., 92:1421, 1969
- radioisotope scanning of superior mediastinal masses (ab), Yen Wang, 92:1422, 1969
- renal excretion of radioiodinated rose bengal—pitfall in interpretation of rose bengal abdominal scans (ab), Leonard M. Freeman et al., 92:674, 1969
- retention and storage sites of radioactive polyvinylpyrrolidone (ab), B. Hulme et al., 92:1172, 1969
- scintillation scanning of malignant melanomas with radioiodinated quinoline derivatives (ab), William H. Beierwaltes et al., 92:1063, 1969
- simplified method for simultaneous determinations of plasma volume and red-cell mass with ^{131}I -labeled albumin and ^{51}Cr -tagged red cells (ab), Ernest Grable and John A. Williams, 92:675, 1969
- transmission scintiphotography (ab), Hal O. Anger and James McRae, 92:673, 1969
- transport of intrathecal ^{131}I RISA to circulating plasma: test for communicating hydrocephalus (ab), Michael Abbott and John F. Alksne, 92:1603, 1969

RADIOIODINE—cont.**bone studies**

- precision and accuracy of bone mineral determination by direct photon absorptiometry (ab), John R. Cameron et al. 92:442, 1969

lymphatic studies

- comparison of endolymphatic ^{32}P -labeled and ^{131}I -labeled lipids in VX-involvement lymph nodes of rabbit (ab), Reginald S. A. Lord and J. B. Kinmonth, 92:1420, 1969

neurologic studies

- diagnosis of normal-pressure hydrocephalus by RISA cisternography (ab), David H. Patten and D. Frank Benson, 92:1420, 1969
- radioisotope test for communicating hydrocephalus (ab), C. H. Tator et al. 92:222, 1969
- transport of intrathecal ^{125}I RISA to circulating plasma: test for communicating hydrocephalus (ab), Michael Abbott and John F. Alksne, 92:1603, 1969
- use of MAAI 131 in cerebral arteriovenous fistulas (ab), Jyoti Handa et al. 92:1602, 1969
- use of radioiodinated serum albumin in study of cerebrospinal fluid flow (ab), Gordon Brocklehurst, 92:221, 1969

pulmonary studies

- alterations in regional pulmonary blood flow in patients with congenital heart disease studied by radioisotope scanning (ab), William F. Friedman et al. 92:442, 1969
- comparison of pulmonary angiography and intravenous radioactive albumin lung scanning in chronic obstructive pulmonary emphysema (ab), Iqbal A. Samad et al. 92:444, 1969
- lung perfusion patterns in carcinoma of bronchus (ab), E. S. Garnett et al. 92:443, 1969
- lung scintiscanning (ab), E. James Potchen, 92:677, 1969
- preoperative lung scanning (ab), Arthur J. Okinaka, 92:444, 1969
- scintillation scanning of lungs in diagnosis of pulmonary embolism (ab), R. H. Secker-Walker, 92:441, 1969

renal studies

- clinical use of C.A.B.B.S. renography: investigation of "non-functioning kidney" and renal artery stenosis by use of ^{131}I -Hippuran renography modified by computer-assisted blood-background subtraction (C.A.B.B.S.) (ab), K. E. Britton and N. J. G. Brown, 92:1420, 1969
- ^{125}I -inulin for quantitative determination of glomerular filtration rate: comparative study of chemical and nuclear clearance in man (ab), G. Hör et al. 92:220, 1969

RADIOIRIDIUM

- re: iridium 192 (letters to editor), Norman Simon, 92:642, 1969; Joseph R. Castro, 92:1573, 1969

RADIOISOTOPES

See also Cameras; Nuclear Medicine; under names of individual radioisotopes; under names of organs and regions, as Abdomen; Brain; Liver; Pancreas; etc.

- assays of radioactive materials for use in patients—five-year study (ab), Patricia A. Cliggett and Joseph M. Brown, Jr., 92:677, 1969
- course in medical uses of radioactive isotopes (Queens Hospital Center), 92:187, 1969
- gammaphotography (ab), Malcolm R. Powell, 92:668, 1969
- hybrid processor for modifying and rearranging radioactive scan data under direct observation, David E. Kuhl and Roy Q. Edwards, 92:558, 1969
- IAEA Symposium on *in vitro* procedures with radioisotopes in clinical medicine and research, 92:642, 1969
- radioactive nuclides in medicine and biology; medicine (bk rev), Solomon Silver, 92:1387, 1969
- radioisotopes in medicine (bk rev), ed. by Raymond L. Hayes, Francis A. Goswitz, Beverley E. Pearson, and Elizabeth B. Anderson, 92:1136, 1969

RADIOLEAD

- absorption of ^{213}Pb from gastrointestinal tract of man (ab), John B. Hursh and Jorma Suomela, 92:221, 1969

RADIOLOGICAL SOCIETY OF NORTH AMERICA

- Annual Oration, 1968: introduction of orator, Eugene L. Saenger, M.D., Charles M. Barrett, 92:681, 1969

- Fifty-fourth Scientific Assembly and Annual Meeting (ed), 92:400, 1969

- how do viruses cause cancer? New Horizons for Radiologists Lecture, Howard M. Temin, 92:931, 1969

- John Hamilton Gilmore, M.D., President, Radiological Society of North America (ed), Earl E. Barth, 92:398, 1969

- Laurence L. Robbins receives Gold Medal (ed), 92:401, 1969

- living past presidents (ed), 92:402, 1969

- "meeting issue" (ed), 92:928, 1969

- New Horizons for Radiologists Lecture. Introduction of lecturer, Howard M. Temin, Ph.D., Milton Elkin, 92:929, 1969

- officers, 1969-1970 (ed), 92:400, 1969

- potentiation of the radiologist: President's Address (ed), Stanley M. Wyman, 92:636, 1969

- radiologists, medical radiation, and public health: Annual Oration in memory of Frederick William O'Brien, M.D., 1881-1965, Eugene L. Saenger, 92:685, 1969

- scientific exhibits, 54th Scientific Assembly and Annual Meeting (ed), 92:403, 1969

RADIOLOGY AND RADIOLOGISTS

- assessment of cavitation from chest radiographs (ab), Cyril Evans, 92:199, 1969

- diagnostic ultrasound associated with Departments of Radiology (ab), R. E. Brown et al. 92:668, 1969

- experience with technician performance of gastrointestinal examinations, John A. Campbell, Melvyn Lieberman, Roscoe E. Miller, Robert G. Dreesen, and Charles Hoover, 92:65, 1969

- First Annual Seminar at Colby College, 92:1387, 1969

- immediate hospital-wide access to x-ray film images, Earl R. Miller and Edward M. McCurry, 92:225, 1969

- on-line computer facility for systematized input of radiology reports, Henry P. Pendergrass, Robert A. Greenes, G. Octo Barnett, James W. Poitras, A. Neil Pappalardo, and Curtis W. Marble, 92:709, 1969

- potentiation of the radiologist: President's address (ed), Stanley M. Wyman, 92:636, 1969

- radiologists, medical radiation, and public health: Annual Oration in memory of Frederick William O'Brien, M.D., 1881-1965, Eugene L. Saenger, 92:685, 1969

- radiology, anatomy, and the medical student (ed), George Stassa and John A. Evans, 92:1562, 1969

- symposium on diagnostic radiology 92:1572, 1969

- use of logical flow charts as aid in teaching roentgen diagnosis (ab), William J. Tuddenham, 92:213, 1969

RADIOLOGY (journal)

- "meeting issue" (ed), 92:928, 1969

- work stoppage at printers, 92:400, 1969

RADIOMERCURY

- localization of kidney for renal biopsy using chlormerodrin- ^{203}Hg (ab), L. Reese and D. Joshi, 92:1424, 1969

- mercury vaporization from radioactive chlormerodrin solutions (ab), Philip C. Johnson et al. 92:221, 1969

- radionuclide distinction of vascular and nonvascular lesions of kidney (ab), Leonard Rosenthal and Everett C. Reid, 92:675, 1969

- scintigraphy with ^{203}Hg and ^{99m}Tc in diagnosis of brain tumors (ab), C. Schneider et al. 92:1172, 1969

RADIOPHOSPHORUS

- comparison of endolymphatic ^{32}P -labeled and ^{131}I -labeled lipids in VX-involvement lymph nodes of rabbit (ab), Reginald S. A. Lord and J. B. Kinmonth, 92:1420, 1969

- in cancer, tumor diagnosis

- changes in ^{32}P counting-rate in human and animal tumors (ab), Ann Woolley-Hart et al. 92:1170, 1969

- interpretation of results of measurements of uptake of ^{32}P in human tumors (ab), D. M. Taylor et al. 92:1170, 1969

RADIORESISTANCE. See Radiobiology**RADIORENIUM**

- radiochemical purity of short-lived technetium 99m from commercial suppliers, E. H. Crosby, 92:166, 1969

RADIORUBIDIUM

- visualization of heart and kidneys in animals with short-lived ^{86}Rb and positron scintillation camera (ab), Yukio Yano and Hal O. Anger, **92: 1173, 1969**

RADIOSELENIUM

- bone scintigraphy with ^{75}Se and scintillation camera (ab), B. Basse-Cathalinat et al, **92: 1423, 1969**
- biological half-life of ^{75}Se -selenomethionine in man (ab), Moshe Ben-Porath et al, **92: 218, 1969**
- detection of parathyroid tumors by selenomethionine scanning (ab), J. S. Garrow and R. Smith, **92: 219, 1969**
- parathyroid scanning in human with selenomethionine- ^{75}Se (ab), Mary G. McGeown et al, **92: 218, 1969**
- photoscanning of pancreas (ab), Antonio Rodriguez-Antúnez, **92: 1604, 1969**
- primary hyperparathyroidism and selenomethionine- ^{75}Se scanning: recent experiences in a head and neck unit (ab), Noel C. Newton et al, **92: 1421, 1969**
- selective administration of selenomethionine ^{75}Se in pancreatic scanning, Stewart R. Reuter and Howard J. Cohn, **92: 158, 1969**

RADIOSENSITIVITY

- cardiac metastasis from myxoid liposarcoma emphasizing its radiosensitivity (ab), Eddy C. K. Tong and Sidney Rubenfeld, **92: 1416, 1969**
- effectiveness of radiation therapy in management of sarcoma of soft somatic tissues (ab), Gordon P. McNeer et al, **92: 1417, 1969**
- factors influencing hematopoietic spleen colony formation in irradiated mice. VI: Different effects of foreign plasma, endotoxin, and bleeding on colony-forming cell kinetics (ab), D. R. Boggs et al, **92: 1168, 1969**
- influence of temperature on susceptibility of old-field mouse (*Peromyscus polionotus*) to acute radiation (ab), Roger G. Williams et al, **92: 1606, 1969**
- liposarcoma: retrospective study of 15 cases; review of literature and discussion of radiosensitivity (ab), Robert W. Edland, **92: 1416, 1969**

- WORK IN PROGRESS
Adaptation of table-top electronic calculator to complete cobalt-60 radiation dosimetry and treatment planning, Harold Koplów, Merrill I. Feldman, and Jacob Spira, 92:163, 1969
Adult bronchopulmonary dysplasia: similarity in roentgen and histopathologic appearance between some cases of oxygen toxicity, radiation pneumonia, and postcytotoxic nonspecific bronchopneumonia, I. Meschan, C. K. De Armas, and M. Scharly, 92:612, 1969
Aerosol bronchography, Harry W. Fischer and Seymour M. Blaug, 92:150, 1969
Anomalous effects of dimethyl sulfoxide on response of mouse lens and cornea to x irradiation: "protection" of lens and "sensitization" of cornea, Ronald F. Hagemann, Titus C. Evans, and Edgar F. Riley, 92:156, 1969
Capnoscavography: new technique for examination of inferior vena cava, Florencio A. Hipona, Ernest J. Ferris, and Ruthann Pick, 92:606, 1969
Closed bone biopsy by radiologist, William N. Hanafée and Peter L. Tobin, 92:605, 1969
Early detection of bacterial growth, with carbon-14-labeled glucose, Frank H. DeLand and Henry N. Wagner, Jr., 92:154, 1969
Evaluation and management of radiation-induced pericardial effusion, A. Robert Kagan, Donald L. Morton, Mark D. Hafermann, and Ralph E. Johnson, 92:632, 1969
Experimental evaluation for 2,6 -diiodo-dl-thyronine suspension as resorbable encephalomyelographic contrast agent, Glen D. Dobben, 92:604, 1969
Fast electronic isodose dose plotter interface for analog display, Robert J. King, 92:164, 1969
Flicker principle for improving detection of chest lesions, Marvin E. Haskin and Leonard Stanton, 92:1566, 1969
Individualized lung shields constructed from lead shot embedded in plastic, Y. Maruyama, V. C. Moore, D. Burns, and M. T. J. Hilger, 92:634, 1969
Initial evaluation of indium 113m as agent for placental blood pool imaging, Philip M. Johnson, Solan Chao, and Paul N. Goodwin, 92:625, 1969
Laminagraphy of breast, W. J. Howland, T. H. Johnson, Jr., and T. A. Reagen, 92:609, 1969
Localization of scintillations in gamma-ray cameras by time-of-flight technics: linear resolutions attainable in long fluorescent rods, L. D. Marinelli, G. F. Clemente, I. K. Abu-Shumays, and O. J. Steigraeber, 92:167, 1969
Lymph node scanning with ^{99m}Tc -sulfur colloid, W. Hauser, H. L. Atkins and P. Richards, 92:1369, 1969
Mammography: simple diagnostic aid in breast cancer, J. Gershon-Cohen, A. G. B. Borden, and M. B. Hermel, 92:1371, 1969
Memorial implant dosimetry application system, Stephen Balter, 92:161, 1969
Patient equivalence of the RANDO phantom for cobalt gamma rays, W. L. Saylor and Betty L. Adams, 92:165, 1969
Parasternal lymph-node scan as prognostic test in breast carcinoma, Ismail Kazem, Luther W. Brady, Millard N. Croll, Donald S. Faust, and Charles C. Wolffert, 92:617, 1969
Protein catabolism in young mice following whole-body x irradiation, S. W. Lippincott, N. A. Azzam, and C. C. Rogers, 92:1629, 1969
Proton microdosimetry, Jerald W. Hilbert and Norman A. Baily, 92:168, 1969

WORK IN PROGRESS—cont.

- Quantitative measurement of bone mineral in excised bone from roentgenograms using FIDAC and a computer. Helen C. Sing and Robert S. Ledley, 92: 169, 1969
- Radiation therapy and 100 per cent oxygen breathing in treatment of adenocarcinomas of large bowel: controlled study. Donald S. Childs, Jr., Charles G. Moertel, Margaret A. Holbrook, Malcolm V. Colby, Jr., and Richard J. Reitemeier, 92: 628, 1969
- Radiochemical purity of short-lived technetium 99m from commercial suppliers. E. H. Crosby, 92: 166, 1969
- Radiographic approach to celiac ganglion block. J. Bruce Jacobs, Stephen H. Jackson, and John L. Doppman, 92: 1372, 1969
- Recognition of irradiated isogenic mouse lymphoma cell. Yosh Maruyama, 92: 630, 1969
- Rectum-bladder dosimetry in treatment of 100 cases of cancer of the uterine cervix by intracavity radium-226 and cobalt-60 teletherapy. Arthur S. Trappier, 92: 162, 1969
- Reduction of linear blurring in tomography. Paul R. Edholm and Lars Quiding, 92: 1115, 1969
- Relationship between specific dynamic pulmonary compliance and diaphragmatic excursion. Eric N. C. Milne and Harry Bass, 92: 615, 1969
- Relative radiosensitivity of young and adult lens. George R. Miriam, Jr., Elizabeth F. Focht, and R. Wayne Parsons, 92: 1114, 1969
- Reoxygenation of tumors during fractionated radiotherapy. Lucille A. Du Sault, 92: 626, 1969
- Report on radium safe and leak testing system. Jack M. Morgan and James E. Nunnally, 92: 161, 1969
- Scintigraphic localization of urinary bladder for radiation treatment. Richard C. Ripple and Floyd W. Wilcox, 92: 624, 1969
- Selective administration of selenomethionine ⁷⁵Se in pancreatic scanning. Stewart R. Reuter and Howard J. Cohn, 92: 158, 1969
- Standardization of x-ray generators. J. D. Gilbertson and A. G. Fingerhut, 92: 165, 1969
- Suppression of reseed mechanism by prior irradiation in sjl/j mouse Hodgkin's like reticulum-cell sarcoma. Philip Ruben, 92: 1564, 1969
- Thrombophlebitis: demonstration by scintiscanning. Milo M. Webber, L. R. Bennett, Michael Cragin, and Roscow Webb, Jr., 92: 620, 1969
- Transjugular portal venography and radiologic portacaval shunt: experimental study. Josef Rösch, William N. Hanafee, and Harold Snow, 92: 1112, 1969
- Use of activity induced in tissue to determine dose from particulate radiations. E. E. Stickley and Nabil Azzam, 92: 168, 1969
